MAIL ORDERS

Read Carefully When Ordering

NOTICE

We ship bare-root roses to the following states only: Arizona, California, Louisiana, New Mexico, Oregon, Texas and Washington. December to March 5th.

Roses can be successfully sent by parcel post or express during the dormant season *(December to March 5th)*. Shipping and packing costs prohibit sending plants in containers, during the growing season.

Out of town orders of $10.00 or more will be shipped prepaid. On orders less than $10.00 please add $1.00 to cover cost of packing and mailing.

To insure prompt delivery we do not ship our roses C.O.D.

Kindly mail remittance with order. Within California, 4% Sales Tax must be added.

Orders booked in advance will receive priority, in varieties that are scarce. If you have a second choice, *please give us permission to substitute.*

Please advise approximate shipping date.

Upon arrival of your order, immerse plants in water for 1-hour (no longer). In the event that dry and windy weather prevails after planting, a practice of wetting down the canes several times each day will prove most beneficial to the plants.

Guarantee—Bare-Root

Our roses are all No. 1 grade, unless otherwise designated. We guarantee them to be true to name, alive and healthy. If a rose does not start to grow within 30 days after purchase, please notify us.

Note—Our nursery is certified by the California State Agricultural Dept. as free from all pests and diseases. This allows us to ship under "Pinto tag" (inspection-free) privileges into practically every county in California. *This assures prompt delivery.*

Local Delivery

Deliveries are made by our trucks Tuesday or Wednesday of each week.

A Gift that Grows—A Crombie Rose

Our 35th Anniversary

Crombie Roses proudly announces that on the eve of our 35th Anniversary we are moving to a new and larger home in the historic area of Union City, (in Southern Alameda County). We have long hoped and planned to find a new location away from the hurry and noise of the city where our many friends and customers may feel free to browse and enjoy themselves without interruption.

Additional space will allow us to plant a more extensive test garden where new and worthwhile creations may be viewed and judged before they are offered to the public.

Dorothy (Mrs. Golie) and I are happy to announce that my sister Mabel and her husband Malcolm (Mac) Campbell who have helped us through our busy seasons at the nursery for many years, have now become our partners at Crombie Roses. Together we have designed a new and modern sales yard where in addition to Roses Exclusively we will carry select lines of garden tools and supplies.

Our new salesroom will be of size large enough to accommodate the public who attend our pruning classes each Saturday and Sunday during the month of January, as well as garden clubs and other groups who wish to attend seasonal lectures on the care of roses.

Charles (Chuck) Bradshaw, who has been with Crombie Roses for more than 15 years will continue as in the past, to be a valuable asset to the business. In recent years during his free time he has been growing miniature roses in his home garden. These plants will now be offered for sale exclusively at Crombie Roses.

We are especially proud of the quality of the roses grown for this coming season. Not only have we increased our crop but have also added a number of the best of the new and old varieties. Thus, we now offer nearly 150 varieties which we believe to be one of the most comprehensive listings of roses in the entire West.

Although Mr. & Mrs. Crombie no longer participate in the day by day operation of the nursery they will always have a parental interest in the success of Crombie Roses.

We take this oportunity once again to thank our many customers old and new. Your continued loyalty has helped to rate "Crombie Roses" with the very "Best".

Sincerely,

Vern P. Golie

Cultural Directions

PLANTING: is the most important procedure in the life of a rose-bush and in the production of first quality blooms. In reality, it is transplanting you are doing. Study our bare root planting sketch on page 8 and follow the simple rules listed below.

#1 PLANT CROMBIE QUALITY ROSES

#2 Never allow the roots to dry out from the time you receive them until they are planted. Soak the roots in water for one hour before planting.

#3 Use a mixture of one part peat-moss or compost with four parts rich soil. Add one handful of bone meal and mix thoroughly.

#4 Roses require good drainage. With heavy adobe soil, it is advisable to place 4" to 6" of coarse rock or gravel in the bottom of the hole, (below the root area).

#5 See planting sketches on page 8. Never plant a $3.00 rose in a two-bit hole.

WATERING: There is no "rule of thumb" for watering roses. Type of soil, time of year, size and age of bushes, temperature—all these are factors to be considered. Important to remember—a rose-bush is working and producing 10 months of the year. It is a heavy feeder and must have ample moisture at all times. One good SATURATION is better than a half-dozen sprinklings.

FERTILIZATION: Roses are heavy feeders. A mulch of well-rotted manure with a cupful of bone meal applied in February is sufficient until mid-April. At this time a monthly feeding with a balanced fertilizer until mid-September will keep your roses in continuous bloom. From September until February withhold the fertilizer but continue regular watering until the Winter rains come.

SPRAYING: In recent years spraying has been vastly simplified. The new hose adapter sprayer, which is precisely regulated does most of the work. There is a sprayer for any size garden.

#1 Always irrigate roses the day before spraying. An occasional washing off the foliage with pressure in the forenoon is beneficial to the plant. Try to allow at least 7 hours of daylight for the foliage to dry. Damp foliage at night is more susceptible to mildew.

#2 Complete coverage is important. Spray the underside of the foliage as well as the top surface.

#3 Use a multi-purpose spray, one that combines an insecticide, fungicide and spreader or sticking agent, or an all purpose dust that controls all types of fungus, sucking insects as well as chewing insects.

Cultural Directions

PRUNING: This is the most controversial phase of rose growing and most authorities have decided opinions on how it should be done. Heavy, medium, light or no pruning at all, each of these methods has advantages which are dependent on what you desire and on the varieties you are growing.

HYBRID-TEAS:

#1 Provide yourself with a good pair of shears (the sharper the better). Do not attempt to cut heavy basal canes with hand shears. Use two-handled shears or better still a pruning saw.

#2 Assume an air of command. One cannot be squeamish about cutting. Bear this in mind, "To be kind to a rose, you must be cruel."

#3 Always cut to a sharp slant, about ½ inch above an eye that faces away from the center of the plant. (commonly referred to as an outside eye.)

#4 How far to cut back may present a problem. If you desire mass color in the garden prune lightly, but if you prefer long-stemmed exhibition blooms, cut severely.

#5 Plan to save the new canes. They will produce more and better flowers than the old woody canes that had bloomed the previous season. Attempt as much as possible to retain canes that are evenly spaced, allowing an open center. (Occasionally an older cane may be retained in favor of new wood to preserve the shape of the bush.)

#6 Tall vigorous varieties like Buccaneer, Texas Centennial and Queen Elizabeth do not always send out new canes from the base of the plant, but will very often break higher up from the permanent canes or structure of the plant. Pruning now will be applied to what we might term the second-story of the rose bush. If a cane has a caliper of 1" and is 36" long, cut back to 18". Remaining canes may then be pruned in proportion to length and caliper.

PRUNING DEMONSTRATIONS

Realizing the wide variance of opinion upon this subject, and the difficulty of doing it justice with the pen, *we are going to conduct public pruning demonstrations during January, here in our Test Garden, at the Nursery. You are invited. The dates will be announced in the local newspapers. (Saturdays and Sundays only)*

Cultural Directions

FLORIBUNDAS:

With the floribunda (cluster roses) we are more desirous of quantity of bloom rather than quality. Therefore moderate pruning is advisable. Remove all dead wood, pruning closely so as not to leave any stumps. Thinning out the center of the bush will encourage more sunlight and better air circulation.

TREE ROSES:

Tree roses may be pruned much the same as you would prune bushes of like varieties. As they are commonly used as specimens for accent planting, maintaining a well balanced head is of prime importance.

CLIMBING ROSES:

It is difficult to explain the proper method of pruning climbing roses, and we hope the accompanying sketches will prove helpful. If possible come to our pruning demonstrations and see for yourself how it should be done.

We cordially invite you to attend our pruning classes each Saturday and Sunday during the month of January. (Hours 10:00 to 11:00 and 2:00 to 3:00.)

If you have any questions on Rose Culture, that we have not answered in the above paragraphs, we will be happy to hear from you.

VISIT YOUR MUNICIPAL ROSE GARDEN

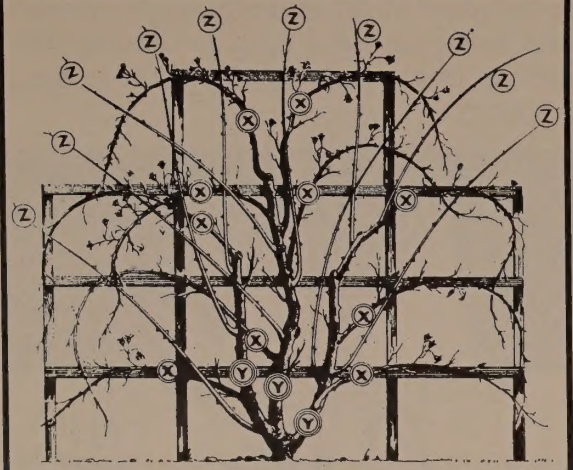
We, who are fortunate in living in the East Bay area, are within easy access to Oakland's and Berkeley's splendid Municipal Rose Gardens, and have a decided advantage when making selections of rose varieties that will do well in our locality.

Visit your local Rose Garden often. It will be worth your while. There you will find rose varieties, both old and new, planted in mass effect and properly grown.

Why not join the American Rose Society? We will be glad to send in your application.

CAUTION: Loosen wire labels on rose bushes each year. Failure to do so may result in girdling and consequent loss of plant.

Climbing Roses

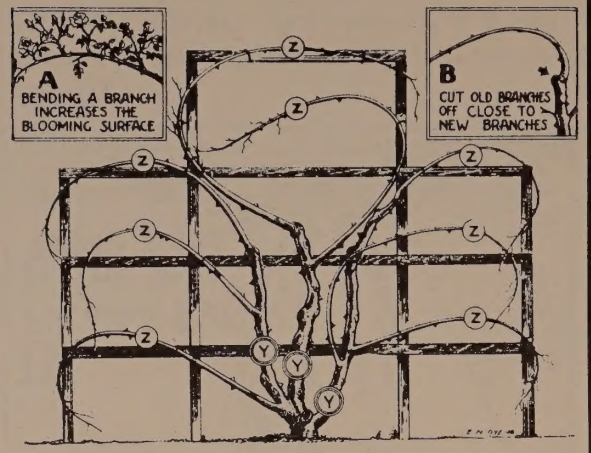


X= Old dormant branches.
Y= Main Limbs.
Z= New branches.

X= Shows old flowering branches which should be removed when pruning.

Y= Shows main branches which are more or less the permanent structure of the plant.

Z= Shows new branches, the best flowering wood for next year.



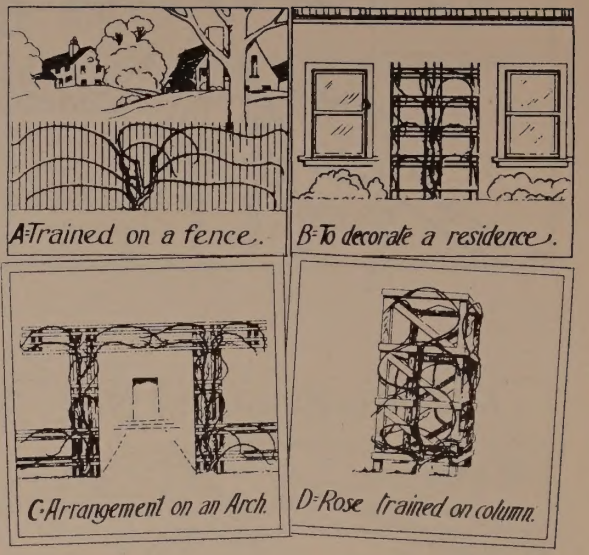
Y= Main Limbs. Z= New Branches.

Note how all old branches were removed.

A= Note bent branches—this encourages flowering.

B= Cut old branches close to joint. Slanting limb cuts heal quickly.

Z= New branches are bent and tied at regular intervals with space left for new blooms.



A= Fences=Not all Climbing Roses make good fence covering. Short jointed varieties with ample foliage & medium to small flowers are best. B= On House Walls=Select clean healthy foliage varieties, with large flowers & recurrent blooming. Always bend branches to keep the growth from all going to the top. C= On Arches=Should be medium to slow growers. Prune severely. Do not allow to get top heavy or ragged. D= Many hybrid Tea Climbing Roses make ideal pillars.

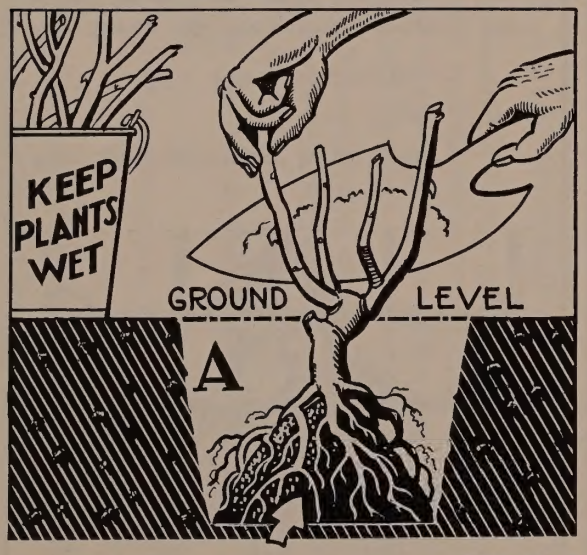
The many new and improved varieties of climbing roses should be of interest to all gardeners, especially those with limited space. See the sketches for new ideas that might add beauty to your garden.

HOW TO PLANT A ROSE

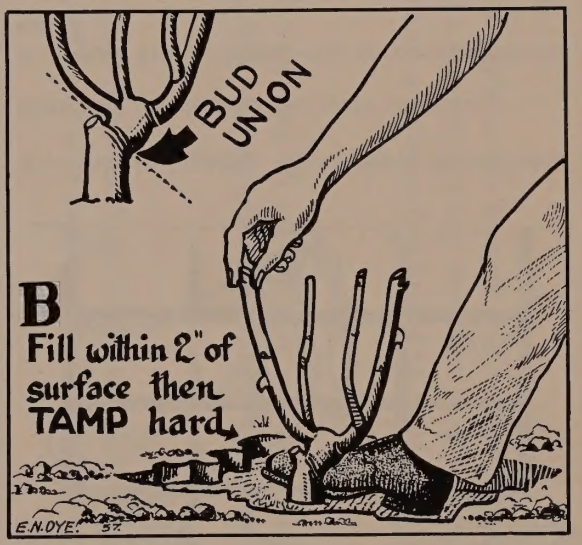
(BARE-ROOT)

DECEMBER THROUGH MARCH

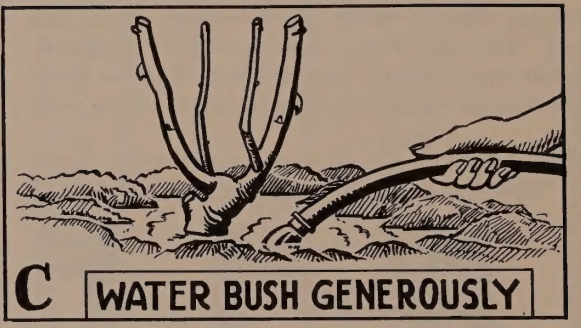
STEP No. 1

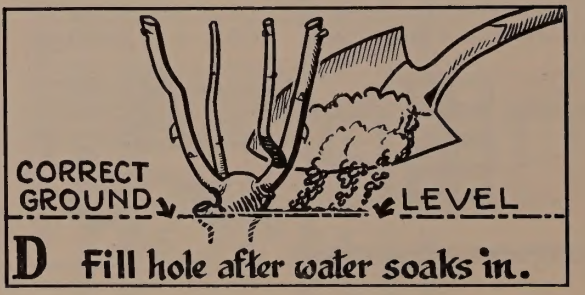


STEP No. 2



STEP No. 3





CONE OF EARTH

Hole of ample width and depth to accommodate roots without twisting or bending. Bottom of hole must be loose and a rich soil mixture. Addition of a small amount of fertilizer or bone meal (or both) thoroughly mixed in the cone-shaped bottom. Place plant in hole, spread roots, hold in position, while filling in loose rich top soil. Fill to within 2 or 3 inches of surface, press firmly with heel of shoe (this is **important**). Bud-union should be one inch above the ground level.

AMERICANA $3.50
PATENT NO. 2058
NEW. The originators say it's the Rose-Lovers dream come true! High brilliant red, high-centered blooms well over 6" across with a delightful old rose fragrance. Lasts for days when cut. A medium grower. 2½-3'

AMERICAN HOME $3.00
P.A.F.
NEW. An intensely fragrant, rich blood-red hybrid tea. Urn-shaped buds are borne on long sturdy stems opening to well shaped blooms that hold their color well in hot weather. Medium. 3-4'

ANGEL WINGS $3.00
PATENT NO. 1865
An exhibition type of rose. Long golden buds open to large perfectly formed creamy white flowers tinged with pink. Acclaimed the Queen at this years rose show sponsored by the East Bay Rose Society. An upright grower, vibrant green foliage. Excellent for cutting. 3½'

AVON $3.50
P.R.R.
NEW. An outstandingly fragrant rose with an almost unbelievable amount of true attar of rose perfume. Long tapered buds open to bright-red, non-fading blooms. Bright green foliage. Medium. 3-3½'

AZTEC $2.75
PATENT NO. 1648
We believe this to be one of the finest in its color class. Each bloom is "show rose" perfect. The buds are fiery-orange in color opening to scarlet-orange double blooms on long strong stems. Very clean foliage. Free blooming. 3'

BLACK VELVET $3.00
P.R.R.
NEW. A new semi-double rose wine-red to almost black in color. An upright plant with dark, abundant foliage. Fragrant. 4'

Bush Roses

BUCCANEER $2.50

PATENT NO. 1119 (GRANDIFLORA)

A most satisfying, large growing yellow rose, flowering either singly or in clusters. The long slim golden-yellow buds open to unfading pure yellow blooms. A tall vigorous plant, free branching, with clean leathery foliage. If grown as a "pillar" it will be 8-10 feet tall, and never entirely out of bloom. It is a very striking accent plant.

CAPISTRANO $2.00

PATENT NO. 922

With closed eyes, one can walk through a rose garden and readily detect the presence of "Capistrano" by its delightful pure rose fragrance. The tall vigorous bush produces perfect blooms of a deep rich shade of rose pink. 4-5′

CARELESS LOVE $2.50

PATENT NO. 1582

Genuinely unique; strikingly similar to a variegated camellia in coloring, it combines red with white streaks, or whole petals rose and white, pink and white, and occasionally you might be surprised to find a pure pink, or an apricot-yellow bloom right on the same stem as the others. The plants are vigorous, producing fragrant flowers steadily through the season. 3′

CARROUSEL $2.00

PATENT NO. 1066 (GRANDIFLORA)

Carrousel has certainly proved itself a champion wherever it is grown. An abundance of vivid deep red blooms are borne in clusters or singly on long stems. The plant is tall and shapely, well clothed with shining disease resistant foliage. Excellent as a tall hedge. 3½-4′

CHAMPAGNE $3.00

P.A.F.

NEW. A toast to a new beauty of sparkling pale Moselle Champagne color with overtones of pink, yellow, apricot and buff. Long cutting stems carry large blooms of exhibition quality. 3-3½′

CHARLES MALLERIN $2.50

PATENT NO. 993

This beautiful deep black-red rose attracts immediate attention. Intensely fragrant, perfectly formed blooms last for days. We suggest it be planted in the background, as the plant is inclined to grow tall and rather awkwardly. 3½′

CHARLOTTE ARMSTRONG $1.75

Long slim reddish buds open to cerise bloom which turn rose-pink in hot weather. Large sturdy plant, very free-flowering, with disease resistant foliage. For years this rose has been called "tops", and is the parent of many successful modern roses. 3-4′

CHRISTIAN DIOR 1962 $3.50

PATENT NO. 1943

NEW. Named for the Prince of Fashion, this exciting rose combines brilliance of crimson red and irridescent scarlet with exquisite form. Blooms are large, high centered on long stems. Fragrant and long-lasting. A tall vigorous plant with glossy foliage. 4-4½′

CHRISTOPHER STONE $1.75

Often acclaimed the most perfectly formed red rose. Brilliant scarlet with crimson overcast. A Man's Rose. Very fragrant. 2′

CHRYSLER IMPERIAL $2.50

PATENT NO. 1167

A glowing red that seems to have all the best qualities of a rose. Agreed to be one of the best All Americans. There can be no happier sight in your garden than a well-grown Chrysler flowering freely; its large, rich, unfading crimson blooms, its clean foliage, and its breath-taking fragrance. Excellent as a cut flower. A prize-winner in many shows. 3-3½′

CONFIDENCE $2.50

PATENT NO. 1192

By popular demand, we again carry in stock this lovely daughter of Peace. The upright bushy plant produces high-centered fragrant blooms on long stems. Coloring is a beautiful blend of gold, white and peach pink. Good for cutting. 3′

CORONADO $3.50

P.R.R.

NEW. Large, pointed, buds of red, flushed with copper-orange; open into large high-centered flowers, rose-red above and yellow beneath. The plant is tall and very vigorous with deep green, glossy foliage. 4½-5′ growth. Shining foliage. 2½-3′

DUET $3.50

PAT. NO. 1903

NEW AARS winner 1961. Well named. A thrilling bicolored rose. As the perfect buds unfold, the flowers display facing petals of soft salmon-pink with the reverse side a rich sparkling, orange-red. A vigorous free branching plant with unusually clean foliage. Excellent for cutting. 3½′

Bush Roses

DUQUESA DE PENERANDA $1.75
A favorite for cutting. Long orange-apricot buds open to peach bloom. Upright vigorous growth. Shining foliage. 2½-3′

ECLIPSE $1.75
Truly a streamlined rose. Long slim golden yellow buds open to soft yellow shapely blooms. Tall upright growth, heavy clean foliage. Fragrant, long stems for cutting. 4′

ENA HARKNESS $1.75
Consistently a blue-ribbon rose at flower shows. Long shapely buds are borne on strong stems, the open blooms retaining a clear red color until the petals fall. A red favorite with us. 2½′

ETOILE DE HOLLANDE $1.75
Since 1919 this has been known as the "best red rose." In bush or climbing form it will give you constant joy throughout the season. 3-4′

FIRST LOVE $2.25
PATENT NO. 921
A soft, clear pink, flowering profusely on a tall vigorous plant. Long tapering buds, borne singly on straight, strong stems. Even in a garden of spectacular brilliance, this modest, gentle beauty attracts constant attention. A bowl of First Love often steals the show. The most prolific bloomer in our test garden. 4′

FRED EDMUNDS $2.00
PATENT NO. 731
Rated by the American Rose Society amongst the country's ten best roses. Brilliant orange buds open to a sort of burnt-copper bloom, attracting surprised attention wherever it is shown. Clean and shining foliage. Not a robust growing plant but very free flowering. 2½′

GOLDEN MASTERPIECE $3.00
PAT. NO. 1284
Said to be the world's largest yellow rose. Enormous fragrant, high-centered, golden-yellow flowers are borne singly on long stems. A tall vigorous bush with clean dark green foliage. 3½-4′

GOLDEN SCEPTRE $2.00
PATENT NO. 910
Another of our blue ribbon winners at the California Spring Garden Show. A medium long pointed bud, opening to a large high centered semi-double bloom, holding its color until the golden yellow petals fall. Fragrant, free blooming, clean varnished foliage. 3-3½′

GOLD GLOW $3.00
P.A.F.
Many of you who bought this rose two seasons ago have inquired why we did not carry it the following season. The truth is we "Goofed". We overlooked it in our budding list. A distinctly different yellow rose. Each bloom with more than 100 petals comes singly on long graceful stems. The rich golden yellow color does not fade during the life of the bloom. Beautiful foliage, excellent for cutting. 3-3½′

HAWAII $3.50
PATENT NO. 1833
A grand exhibition rose with a delightful raspberry fragrance. A tall vigorous bush produces gorgeous orange-coral blooms that retain their brilliant color until the petals fall. Most effective when planted in groups of three. Bronzy-red foliage. Excellent for cutting. 4-5′

HELEN TRAUBEL $2.75
PATENT NO. 1028
Beautifully formed, light sparkling pink with apricot shadings. Seldom out of bloom. All American for 1952 and still one of the favorites amongst "Show" roses. Magnificent buds open slowly to blooms of about 27 petals of two-toned perfect flowers. Often we hear the remark, "Worthy of her namesake." 4′

INVITATION $3.00
P.R.R.
NEW. A lovely rose you'll accept with pleasure. Unusual rich salmon-orange. Has 5-inch flowers with profuse medium thick petals which roll outward when fully open. 3-3½′

ISOBEL HARKNESS $2.75
PATENT NO. 1650
We consider this new rose to rate with the very best in the yellow class. A robust, handsomely foliaged Hybrid Tea with plenty of long tapering buds and graceful open flowers. Shapely growth. 3½′

JOHN S. ARMSTRONG ..... 1962 ..... $3.50
PATENT NO. 2056 (GRANDIFLORA)
NEW. A truly magnificent grandiflora. A tall proudly erect bush produces great quantities of brilliant deep red blooms of spider-web perfection. The beauty of the flower is enhanced by heavy dark green foliage. Pleasingly fragrant blooms that last well when cut. 4-5′

Bush Roses

KARL HERBST $1.75
Often referred to as the Red Peace because of its parents, one of which is Peace. The blooms are large, well shaped, very fragrant, dark scarlet and lasting well. Many Rose Society members consider it an exhibition. rose. Vigorous grower. 3'

KING'S RANSOM
..... 1962 ... $3.50
P.A.F.
NEW. A tall, sturdy, hybrid tea with big, handsome buds, opening into huge blooms of pure yellow, on long, strong stems. The flower is unusually weather-resistant, holding the rich chrome-yellow through the entire blooming season. Bright green, shining foliage, very disease resistant. (Excellent for cutting.) 4½-5'

KORDES PERFECTA $3.00
PATENT NO. 1604
Considered the crowning achievement by the great hybridizer Wilhelm Kordes and perhaps the most talked about rose in recent years. A flashing new color. Cream white buds edged with carmine, which color spreads throughout as the flower opens to a combination of pink, white and yellow. Fragrant. 3-3½'

LADY ELGIN $2.50
PATENT NO. 1469
A combination of orange and apricot. The large, full, shapely buds come on long, strong stems, excellent for cutting. Sturdy plants with good foliage. 3'

MARK SULLIVAN $1.75
PATENT NO. 599
A multi-colored rose that has "everything." The first rose to bloom in the spring and often the last to stop flowering at frost. Gives you a magnificent splash of color in your garden. Remarkable blending of color tones, rich gold, heavily veined and shaded with rose-pink and cerise. Glossy foliage. Sturdy and vigorous. 3½'

McGREDY'S YELLOW $1.75
Bright buttercup-yellow, throughout the season. Glossy foliage. Excellent for cutting. 3'

MEMORIAM $3.50
P.P.R.R.
NEW. On first seeing this pink beauty in the fields at Livermore we are reminded of the old favorite Rapture. Same high-centered buds of soft pastel pink on long straight stems. Buds unfold slowly into luminous pink flowers with from 50 to 60 petals. An exhibition rose. 3-4'

MME. HENRI GUILLOT $2.00
The Blue Ribbon Rose of many flower shows, and a "must have" in every garden. Large urn-shaped buds open to truly Camellia-like blooms of glowing tones of reddish orange, rose and coral pink. Clean glossy foliage. Disease resistant. 3'

MOJAVE $2.75
PATENT NO. 1176
Radiant orange is the dominant color, highlighted by flame-like tones of scarlet and vermilion. A daughter of Charlotte Armstrong. The vigorous bush of Mojave produces amazing numbers of beautiful long tapering buds. 3-4'

MONTEZUMA $2.75
PATENT NO. 1383 (GRANDIFLORA)
The most highly praised rose in years. A brilliant coppery-red changing to orange-scarlet. The buds are beautifully formed and open to large high-centered flowers. Blooms freely. Customers have told us that they have lasted as long as 10 days when cut in the bud. 4-4½'

MRS. PIERRE S. DUPONT ... $1.75
This good yellow rose will probably bloom more profusely than any other rose in your garden. This is especially true in hot climates. Rich green foliage. Fragrant. 2½'

MRS. SAM McGREDY $1.75
Since 1929 this rose has been known as "best of the type." No garden is complete without it. Scarlet-orange buds open to apricot and bronze blooms. Reddish foliage. Low spreading growth. Fragrant. 2½'

ORCHID MASTERPIECE ... $3.00
PATENT NO. 2039
A striking new hybrid tea in the series of lavender roses. Long slender buds are a lively deep orchid opening to shades of lavender. Perfectly formed medium-sized flowers are sweetly fragrant. Excellent for cutting. 3'

PEACE $2.50
A magnificent rose. We have never seen a color-picture of Peace that does it justice. A wonderful large golden yellow bud, streaked with red, opens to a soft yellow edged with pink. The full bloom, huge, many-petalled, is a delicate pink, or ivory depending upon the weather or the location of the bush. It is a most illusive combination of robust growth and delicacy of shadings that it has to be seen to be appreciated. Do not prune too heavily, and you may enjoy these blooms all season long. 3-4'

Bush Roses

PICTURE $1.75

Perfectly formed, medium-sized pink blooms. Tea fragrance. Upright. Well-balanced growth. 2'

PINK FAVORITE $2.50

PATENT NO. 1523

Gold Medal Winner in 1957 this lovely deep pink rose is truly an excellent addition to the new roses. Long pointed buds nestled in an abundance of glossy, dark-green disease resistant foliage. 3'

PINK PEACE $3.00

PATENT NO. 1759

Enormous dusty-pink flowers of beautiful form carried erect on strong stems. Foliage and habit of growth similar to Peace. A Must Have. 3-3½'

PRESIDENT HERBERT HOOVER $1.75

Flaming scarlet and yellow buds open to soft pink and gold blooms. Long stems. Plant very large and vigorous. 5'

QUEEN ELIZABETH $2.50

PATENT NO. 1259 (GRANDIFLORA)

An aristocrat amongst roses. A clear pink, deepening as it ages, long strong stems. With as many blooms as a Floribunda, but with the perfection of form of a Hybrid Tea. Excellent strong upright growth, foliage clean and glossy. A truly regal rose. Excellent for cutting. 4½-5'

SAN FRANCISCO $3.00

PATENT NO. 2045

NEW. Dr. Walter Lammerts has produced a brilliant unique rose, worthy to be named for everyone's Favorite City. Many of you marveled at its striking color while viewing it for the first time in our display at the 1961 California Spring Garden Show. In the bud stage the color might be described as dull coppery-orange blended with scarlet. It opens slowly to display dazzling blooms of fiery coppery-red. San Francisco combines many of the good qualities most desired in a near perfect rose. Mildew resistant. Exceptionally long lasting when cut. (Order early limited supply). 3½'

SATURNIA $1.75

The Spring foliage is so beautiful on this variety that one might easily question the need for blooms. The vermilion bud opens to startling cardinal-red with gold facing. We can only say "Plant one and see for yourself." Highly recommended by the San Francisco Rose Society. 2½'

SLEIGHBELLS $2.00

PATENT NO. 1004

We have received favorable reports, many of high praise for this rose, from various localities. We consider it to be the best white rose for the bay area. Large ovoid buds open to 40 or more lovely petals, with a suggestion of primrose yellow at the base. Seldom out of bloom. Clean shining foliage. Rates high with the San Francisco Rose Society. 3'

SNOWBIRD $1.75

A pure white, very double, perfectly formed bloom, often likened to a camellia or a carnation. The bud is small and dainty, the open flower is about 3" in diameter and is excellent as a cut flower. Disease resistant foliage. Compact plant. Delicate perfume. 2-2½'

STARFIRE $3.00

PATENT NO. 1742 (GRANDIFLORA)

"The most satisfactory rose in my garden." We hear this often and can easily agree. Upright, vigorous, completely disease-resistant plants bloom profusely throughout the flowering season. Urn-shaped, scarlet buds open to brilliant, currant-red blooms that hold their color through all kinds of weather. A must have. 4'

STERLING SILVER $3.00

PATENT NO. 1433

The most talked about rose in years. Last year we thought we had plenty but again we were sold out early in the season. Something new in color. Warm regal lavender buds open to high-centered exhibition blooms. Sweetly fragrant and will last for days when cut. 3-3½'

SUSPENSE $3.00

PATENT NO. 1944

The most startling bi-color in recent years. Gorgeous blooms of 55 to 60 petals display a striking color combination of brilliant scarlet with gold reverse. An upright, vigorous plant with very clean, shining foliage. 3'

SUTTER'S GOLD $2.25

PATENT NO. 885

Yellow buds, shaded with orange, open to fine clear yellow blooms. Intensely fragrant. Has good growing habits; bushy, long stems for cutting and very few thorns. A fitting memorial of the days of gold. 3½'

Bush Roses

TANYA $3.50

PATENT NO. 1712

Long, slender, lively orange-red buds open gradually and gracefully to glowing, radiant, deep-orange blooms. Each perfect flower, sweetly fragrant, comes singly on long strong stems. The moderately bushy plants are well clothed with shiny disease resistant foliage. A favorite with us. 2½-3′

TEXAS CENTENNIAL $1.75

Blood red tones in the fine strong buds, tone to cerise-red in the center of the bloom as it opens. It is still a deep warm pink when the petals fall. Grows tall and bushy so allow plenty of space. 5′

THE DOCTOR $1.75

Very large buds, long and pointed, expand to simply enormous blooms in their fully developed stage. The color is an exquisite silvery-pink, uniform in color, both in bud and in bloom. Intensely fragrant. 2-2½′

ALL AMERICA ROSE SELECTION

TIFFANY $2.75

PATENT NO. 1304

1955 AARS winner in the hybrid tea class and certainly deserving of the honor. Lovely phlox-pink buds open into large high-centered perfectly formed blooms. Exceptionally fragrant. "Tiffany" has all the admirable qualities desired in a rose. Excellent for cutting. 3½′

WHITE BUTTERFLY $2.50

PATENT NO. 1337

NEW. A classic long-pointed bud opens to a beautiful, clear white, perfectly formed bloom. Delightful fragrance. A moderate upright compact grower. Disease resistant foliage. 3′

WHITE KNIGHT $2.75

PATENT NO. 1359

First white hybrid tea ever awarded the AARS honor (1958). Truly spectacular with superb form of both bush and flower. The satiny white blossoms hold their purity color on long stems ideal for cutting. Selected Queen at the San Francisco Fall Flower Show. 3′

Floribundas

(Hybrid Polyanthus)

A Recurrent blooming rose that is rapidly increasing in popularity. Useful as low hedges, or, if allowed to grow large, they make an excellent flowering shrub. They combine the hardiness of the polyanthus with the improved flowering qualities of the Hybrid Tea.

BETSY McCALL $2.00

PATENT NO. 1603

We displayed 4 bushes of this variety at the front of our display at the California Spring Garden Show. We forgot to label them and as a result we received dozens of phone calls asking for the name. Soft coral with overlay of gold. A compact bush with clean foliage. 2½-3′

BORDER GEM $2.00

P.R.R.

A brand new dwarf floribunda ideal for a low colorful border. Long slender buds of the most exquisite coral-orange. Dark green foliage free of rust or mildew. Will thrive in partial shade or full sun. 15-18″

CAROL AMLING $1.75

(PINK GARNETTE) PATENT NO. 1126

Introduced by Amling-DeVor Nurseries this sweet little baby pink rose produces dozens and dozens of perfectly formed 60 petaled blooms lasting for days. This beauty is enhanced by clean bronzy foliage on a shapely well-rounded plant. 2′

CECILE BRUNNER $1.75

The "Sweetheart Rose" needs no description. Tiny pink buds open to delightful many-petaled blooms that have been beloved since 1881. 3′

CHINA DOLL $2.25

PATENT NO. 678

A bright China-rose completely hides even the foliage on the low compact bushy plants. Practically thornless and excellent for trim, border or bedding as its burst of bloom comes one after the other. 15″

CIRCUS $2.50

PATENT NO. 1382

A standard of comparison in the floribunda class. An exciting array of many colors including soft-red, orange and yellow, turning to buff with delicate shadings of soft pink. We have six plants of Circus in a brick planter in our home garden. They bloom continuously from early spring until pruning time. Clean disease-resistant foliage. 2-2′

FLORADORA $1.75

The vigorous well balanced plant is clothed with shining holly-like foliage. Each stem produces clusters of medium sized, very double blooms of cinnabar, geranium red, to orange-scarlet. Cut flowers last for days. 3′

GARNETTE $1.75

Like Carol Amling, this petite little red rose has beauty and charm, with an ability to last for days in the garden or as a cut flower. The plant is covered with an abundance of crinkled holly-like foliage. (Ideal for corsage use.) 2′

GIRL SCOUT $2.75

PATENT NO. 2090

We hope this may be the answer to the need for a good yellow floribunda. Slender buds open to golden yellow unfading blooms 3-3½′ across. Bushy compact growth with glossy green foliage. 2′

GOLD CUP $2.00

PATENT NO. 1683

Lovely golden-yellow that holds its color throughout the life of the flower. Since yellow floribunda are quite rare, this one with its lovely fragrance will be extremely popular. 1958 AARS award winner. 2′

GOLDEN GARNETTE $2.50

P.A.F.

A lovely new member of the Garnette family. The very double golden blooms, opening to 4″ across are rich in fragrance. Like Garnette, the blooms last for days when cut. The plant is low-growing and bushy. Ideal for bud arrangements. 1½-2′

GOLDEN SLIPPERS

..... 1962 ..... $2.50

Perfectly formed, pointed buds swell to show a hint of red and a promise of gold then open into blooms of fluorescent orange and gold. When in full bloom, the color softens slightly to a pastel orange surrounding the golden center. The plant is neat, compact, sturdy and disease resistant, continuously in bloom. Low. 1½-2′

Floribundas

GOLDILOCKS $1.75
PATENT NO. 672
Generally called the "best yellow floribunda." Golden buds open to very double blooms nearly three inches across. The clusters come on a compact bush that makes an excellent low hedge. 1½-2'

HEAT WAVE $2.75
PATENT NO. 1786
The Originators say, "the hottest red yet." A fiery chinese red, with highlights of persimmon and shadings of ruby. 3-3½'

IVORY FASHION $2.00
PATENT NO. 1688
Long slender buds open to 4" flowers with long decorative golden stamens. Very fragrant and long lasting. A well balanced bush with dark green disease resistant foliage. Free bloomer. 2'

LAVENDER PRINCESS $2.50
PATENT NO. 1905
NEW. We consider this to be the finest in the new lavender family of roses. Buds are orchid-tan and lavender, becoming pure lavender as they open. Flowers are borne in large clusters on a compact bushy plant with very clean dark green foliage. 2'

LITTLE DARLING $2.25
PATENT NO. 1581
Well named. Small 2½" perfect blooms are borne both singly and in clusters on a tall spreading disease resistant bush. A blending of orange-red changing to rose-pink with gold shadings. 3'

MALIBU $2.00
PATENT NO. 1962
NEW. A fresh and appealing color. Coral, orange-red, becoming several shades lighter as the flower ages. Nicely shaped bloom with high center and reflexed petals. 3'

MARGO KOSTER $1.75
Unequaled where a low colorful hedge effect is desired. The plant is almost evergreen with bright green shining foliage. The soft orange to gay coral pink blooms come in clusters, a new crop of flowers quickly following the last. We "SOLD OUT" immediately after showing it in our display at the California Spring Garden Show. 1½-2'

MASQUERADE $1.75
PATENT NO. 975
The most exciting rose in our test garden. Clusters of yellow buds change to rose pink, gradually deepening to red. The gay color combination is suggestive of the name. 3'

MOTHER'S DAY $1.75
A red sport of the ever popular Margo Koster. Large clusters of small cherry-red cupped blooms are produced on a low bushy plant with clean bronzy foliage. 1½-2'

PINK BOUNTIFUL $1.75
PATENT NO. 601
Well named. Large clusters of soft pink bloom, likened to a smaller Picture. Clean foliage. Excellent bush. Vigorous. Holds color well. 2½'

PINK ROSETTE $2.00
PATENT NO. 902
The lovely blooms of pink have been compared to the rosettes on a baby's bonnet. The well-shaped plant has very few thorns and is exceptionally free of disease. Clusters of from 20 to 30 perfect buds are produced on a single stem. This little rose is a constant joy in our garden at home. 2½'

RED FAVORITE $2.00
PATENT NO. 1189
We consider this the finest red floribunda. Unfading color, free blooming, clean foliage and bushy compact growth. Huge clusters of 20 to 30 cherry-red blooms are produced on single stems. A single cluster is a bouquet in itself. Lasts for days when cut. The Crombies have a 100 plant hedge of Red Favorite bordering the driveway at their Ceres home. 2'

ROSENELFE $1.75
Pure pink with a silvery reflex, fully double tiny blooms. Lovely in a flower arrangement, and quite perfect as a boutonniere. 3'

SARABANDE $2.50
PATENT NO. 1761
NEW. AARS 1960. A bright iridescent orange-red with contrasting yellow stamen makes this new rose impossible to overlook in any garden. A semi-double rose with from 12 to 15 petals. Compact and spreading, ideal for a low hedge. 2'

SKYLARK $1.75
PATENT NO. 1678
NEW. Another new introduction by the Amling-DeVor Rose Growers at Livermore. It has all the beauty and charm of Carol Amling from which it was sported. Sixty petaled lively pink blooms of superlative form are produced on a plant that certainly suggests "Class". Lasts for days when cut. 2-2½'

Floribundas

SPARTAN $2.00

PATENT NO. 1357

We believe Spartan to be the outstanding floribunda of recent years. It has everything, color, foliage, free blooming, shapely plant and regardless of locality, whether you live on the coast or in the interior valley Spartan will perform like a true Spartan. Long lasting burnt-orange buds opening to reddish coral. Excellent for cutting. Fragrant. 2-2½'

THE FAIRY $1.75

The fresh pink sprays of this tiny-flowered rose have charm throughout the season. The wide-spreading plant is ornamental as a shrub and fills a long felt want for planting on terraces or in rock gardens. 2-2½'

TOM TOM $2.00

PATENT NO. 1671

Outstanding in its color class. A MUST HAVE. Deep crimson-pink buds open to display masses of fragrant, deep pink tightly-clustered blossoms. Very uniform compact bushy growth. New growth and foliage beautiful shade of dark red. 2½'

WHITE BOUQUET $2.00

PATENT NO. 1415

We are pleased with the performance of this new floribunda winner in the nursery test garden. Sparkling white, spicy fragrance; gardenia-like form. The flowers open slowly, retaining a high center. The plant is low and bushy with a very disease resistant foliage. 1½-2'

Miniature Roses

Miniature roses are fast growing in popularity. They are unexcelled for use as a colorful low border or for color in rock gardens and patio planters. The perfect little blooms are ideal for arrangements, boutonniere and corsages. They are easily grown, requiring the same care as the larger roses.

BABY MASQUERADE $1.50
Yellow buds open to various shades of salmon-pink and finally turning red. A favorite with us. 10"

BABY GOLD STAR $1.50
Golden yellow buds open slowly to very double yellow flowers. Vigorous bushy plants with clean shining foliage. Excellent border or pot plant. 12"

BIT O' SUNSHINE $2.00
Brightest yellow miniature. Compact, bushy plants produce long slender buds of perfect form. Excellent for pots. 10"

CINDERELLA $1.50
Tiny light pink buds open to dainty shell-pink blooms (almost white in warm weather). Very clean foliage. 6 to 8"

DIAN $1.50
Our favorite miniature. A vigorous hardy bush that blooms continuously. Brilliant deep pink buds lighten in color during the warmer weather. Fragrant and excellent for cutting. 15"

LITTLE BUCKAROO $1.50
Makes a showy display on a patio when grown in a redwood tub. A vigorous bushy plant produces long-lasting bright red flowers from early spring until pruning time. 15"

LITTLE SCOTCH $1.50
A soft butterscotch-yellow with perfect bud form. Ideal for rock gardens, pots or borders. 12"

LOLLIPOP $1.50
The brightest red miniature. A vigorous bushy plant, ideal for rock gardens or as a low border. Very showy in redwood planters. 12"

MARY HAYWOOD $1.25
Very double bright pink flowers that drop clean. A low bushy plant with very tiny foliage. 10"

PINK JOY $1.50
Double pink buds tinged with salmon open slowly to delightfully fragrant flowers. Continuous bloomer. Very good for pots. 12"

RED IMP $1.50
Deep, rich crimson, nearly perfect buds with up to 60 petals. Very low growing. Always in bloom. 6" to 8"

ROSA ROULETTI $1.25
One of the oldest, still one of the best. Long lasting, double pink flowers that at times will have glowing undertones of lavender. Very good border rose. 10"

WESTMONT $1.50
Similar to Little Buckaroo. Clean foliage with bright red flowers. Fast growing. Good for borders or in tubs. 15"

All America Rose Selections winners are identified with the AARS symbol. This is a mark of distinct qualification as these roses are severely tested throughout the United States and judged on merit by experienced, critical horticulturists.

"Quality is never an ACCIDENT. It is always the result of high intention, sincere effort and skillful execution."

Climbing Roses

So many new and worthwhile varieties have been developed in the past few years that we can truthfully say "There is a climbing rose suitable for any location in your garden."

OUR OWN NEW INTRODUCTION

CLG. MARGO KOSTER $3.00
P.A.F.

Does the idea of Clg. Margo Koster give you a picture of sheer and rare beauty in your garden? We are proud and happy to announce our own introduction CLIMBING MARGO KOSTER. You may have been one of the many who have said to us "I wish that Margo Koster came in a climber." Well, now we have the rose you have long desired. Year after year, we have used it in the bush form as a border rose at our displays at the California Spring Garden Show. Long, willowy, easily trained canes produce masses of bloom throughout the entire flowering season. The blooms are similar to the bush, however the flower form is far more perfect and the soft orange to gay coral-pink color becomes much sharper and deeper on the climber as the flower ages. Like the bush, the dainty little blooms seem ageless, but drop cleanly, allowing the plant always to maintain a well-groomed appearance. Beautiful, shining, bright green foliage. (Also available as a weeper or fountain tree.)

BLAZE $1.75
A brilliant scarlet-crimson resembling Paul's Scarlet Climber in general appearance, but differing in its strong tendency to produce on established plants intermittent blooms throughout the season.

CLG. CECILE BRUNNER $1.75
Tiny pink blooms of the "Sweetheart" rose. Very rampant and very easy to grow.

CLG. CHARLOTTE ARMSTRONG $2.00
In the deep pink to cerise color class no other climber can surpass Clg. Charlotte Armstrong. Same vigor, good foliage and classic beauty as the bush, with an ability to repeat its blooms throughout the year. A beautiful sight and unusual in its ability to produce flowers on first year's canes.

CLG. CHRYSLER IMPERIAL $2.50
PATENT NO. 1528
Like the bush, Clg. Chrysler Imperial rates at the top of the list of rich, unfading, crimson blooms. Fragrant. Long lasting when cut. Rampant growth. Clean foliage.

CLG. CIRCUS $3.50
P.A.F.
NEW: A changing parade of gay colors—yellow, orange, buff, pink and often a finished flourish of soft red. Bushy, easily kept to the height of 8'. Disease resistant foliage.

CORAL DAWN $2.75
PATENT NO. 1117
An everblooming climber of Coral-Pink. The color really lasts from the dainty pointed buds to the slow-opening, graceful, long-lasting, 4½ inch blooms. The lustrous, dark green foliage is disease-resistant. A mild-growing pillar rose which produces masses of bloom on its terminal as well as the lateral canes. 6-8'

DESCANSO PILLAR $2.25
PATENT NO. 943
A sensational pillar rose that seems to be entirely disease resistant. Vigorous canes of about seven feet and clothed with beautiful foliage, produce masses of long stemmed high-centered blooms. We might describe the color as clear begonia-pink shaded to rose pink.

DON JUAN $3.00
PATENT NO. 1864
Rates "tops" with us. Beautiful deep red, perfectly formed blooms, a delightful fragrance, clean bronzy foliage, a moderate grower easily supported and an ability to produce one crop of flowers after another makes this one of the most popular climbers on the market. Several members of the San Francisco Rose Society have told us to recommend it for the San Francisco area without reservation, and we have had similar reports from the warmer interior regions. 6 to 8'

Climbing Roses

CLG. ETOILE DE HOLLANDE $1.75
Usually known as the "best red climber." Same gorgeous bloom as on the bush, and quite as free flowering. Always scarce, so order yours early.

CLG. GLADIATOR $2.75
PAT. NO. 1524
A champion of everblooming climbers. Immense 5" high-centered flowers of rosy red to bright scarlet adorn this erect pillar rose from early spring until January. Many of our customers have acclaimed it as the most satisfying rose in their gardens.

CLG. HEART'S DESIRE $2.00
PATENT NO. 663
Vigorous climbing form of the bush and with identical bloom. Very fragrant. Intense scarlet bloom that is showy on a tall climber.

HIGH NOON $2.50
PATENT NO. 704
The multi-purpose rose. Train it on a fence or wall, grow it on a pillar or just plant it in a corner of the rose garden without supports. The tall vigorous canes grow erect producing masses of blooms on the terminal canes as well as the laterals. Medium sized perfect blooms of deep non-fading yellow.

CLG. IMPROVED BLAZE $1.75
The blooms and foliage are identical to the ever popular Clg. Blaze, but habit of growth differs. Where Blaze sends out vigorous canes suitable for training on a wall or high fence, Improved Blaze sends out runners 4 to 5 feet long that are ideally suited to a low fence where mass color is desired. Continuous bloom.

IMPROVED PAUL'S SCARLET $1.75
Vivid scarlet cluster rose, so well known that we won't try to describe it. In the spring it is unsurpassed as a riot of flaming bloom.

CLG. MARGO KOSTER $3.00
P.A.F.
Our new introduction. See description on page 19.

CLG. MRS. SAM McGREDY $2.00
There could be no more beautiful climbing rose than this. The same glorious copper-orange-red combination as in the bush, the same reddish green foliage, and the same sweet fragrance. We can recommend this rose to you, and know that it will give you pleasure for years to come. Come see how it grows and flowers here at the Nursery.

CLG. PEACE $2.50
PATENT NO. 932
The first year in the ground Clg. Peace appears to be a sparse bloomer, but the next year it really makes up for it. Plant is very vigorous with beautiful blooms and foliage (identical to that of the bush).

PINK CLOUD $2.50
PATENT NO. 1140
One of the most outstanding pillar type of roses in recent years. A moderate growing plant with very disease-resistant foliage produces clusters of medium sized clear pink semi-double flowers. We have two of these growing in half-barrels in our patio at home, which are constantly in bloom.

CLG. QUEEN ELIZABETH $2.50
PATENT NO. 1615
So many have asked for Climbing Queen Elizabeth that we are happy to announce that it is now available in Climbing form. Same fine qualities as the bush. Excellent for cutting. (See grandiflora description.)

CLG. ROYAL GOLD $3.00
PAT. NO. 1849
A new golden pillar rose that can be easily trained on a low fence or medium sized trellis. Ovoid buds open to gorgeous yellow blooms with up to 45 shiny petals. Produces masses of bloom both singly and in clusters. Pleasing fragrance. Good for cutting.

CLG. ROYAL LAVENDER $3.00
P.R.R.
NEW: The originators say this strong, everblooming Climber is a true lavender with dove-gray and warm pink tones. Borne in clusters of 5 to 10, each bloom is perfection. Buds are long and slender, opening to 3 to 4 in. flowers with delicate fragrance. Grows 6 to 9' the first year.

CLG. SNOWBIRD $1.75
For good clean foliage, and abundance of well formed blooms and overall good appearance. Clg. Snowbird is certainly "tops" in the class of whites. The plant is not a rampant grower so it can easily be trained on a trellis or low fence. Long lasting as a cut flower.

CLG. SUTTER'S GOLD $2.50
PATENT NO. 1185
Clg. Sutter's Gold should be good news to anyone who wants a tall vigorous climber that really produces a lot of beautiful flowers (identical to bush) and is well clothed with clean disease resistant foliage.

Tree Roses

Our crop of tree roses with extra large 2 year old heads is the finest we have ever grown. We have 3500 of these beauties with more than 30 varieties to choose from.

KXL THE COMPLETE ALL PURPOSE SPRAY!

Year 'round insecticide and fungicide protection.

KXL is easy to use; no protective mask or gloves are necessary. **KXL** has a Pleasant Piney Odor and does not discolor or leave unsightly residues on Foliage, Blooms, Buildings or Fences. The Natural Ingredients and Vegetable Oils in **KXL** allow greater plant compatibility and when properly applied can be used on most any healthy Indoor or Outdoor plant and at warmer temperatures than most other sprays. The effective Spreaders in **KXL** leave no large drops of excess spray on the plants that would tend to injure them at higher temperatures.
